

Roll up, roll up!

We are learning about the science behind roller coasters!

We're going behind the scenes to see forces at work.

Scream Machine

Maths

We have been learning about fractions for most of this term.

We will move on to decimals and percentages, linking them to fractions.

In Science we will be finding out about: Forces & Materials

- Children will be learning about a variety of the forces which can be seen in action at a theme park.
- They will experiment with recreating some of these forces and utilising their knowledge of the properties of materials.
- Children will be set tasks to create rides based on their ideas.

In DT we will be finding out about: Mechanical Systems

- Children will be designing rides and ride carriages based on a specific brief

RE

Our theme this time is Salvation.

We will find out the key events of the Easter Story, including the Last Supper and the Resurrection.

Key Question: What did Jesus do to save human beings?

Literacy

We will continue with extended writes – HCT is full of such talented and creative story writers!

We will also write shape poems, persuasive texts, narrative poems and instructions.

There's a lot to get through!

We will also cover parenthesis, brackets, dashes, cohesion and ambiguity in our Grammar, Punctuation and Spelling focus.
